

Installing / Verifying Java Installation

An updated instance of Java is vital, especially when operating within Bb. It is also important to have a backup browser, such as Firefox.

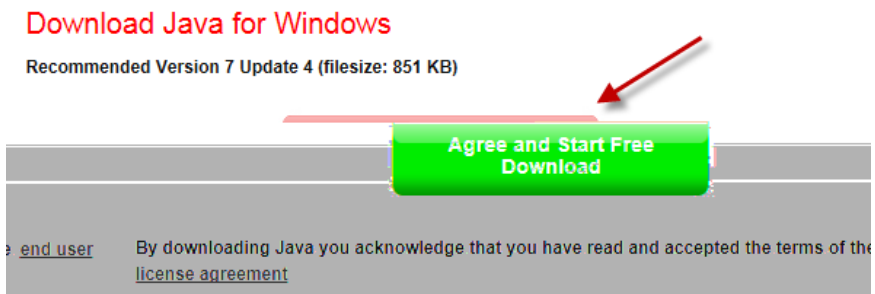

1. Navigate to:

WWW.JAVA.COM

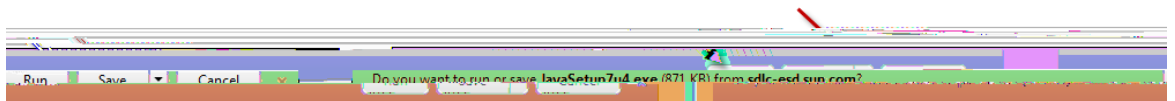

2. Click the
button.

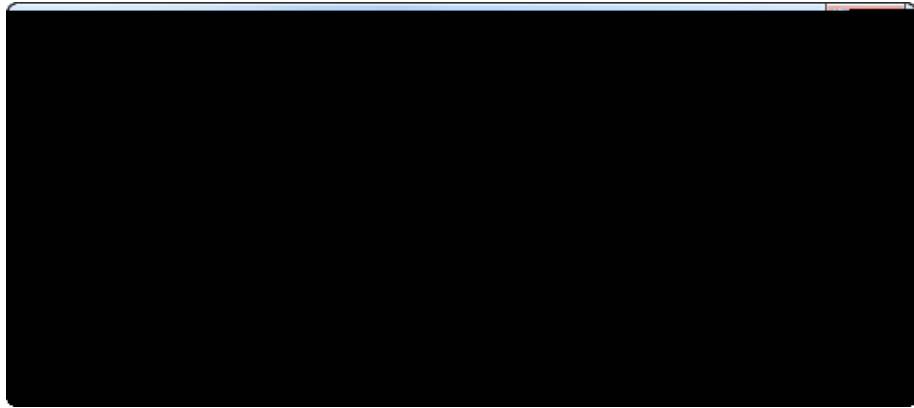

3. Click the
button.

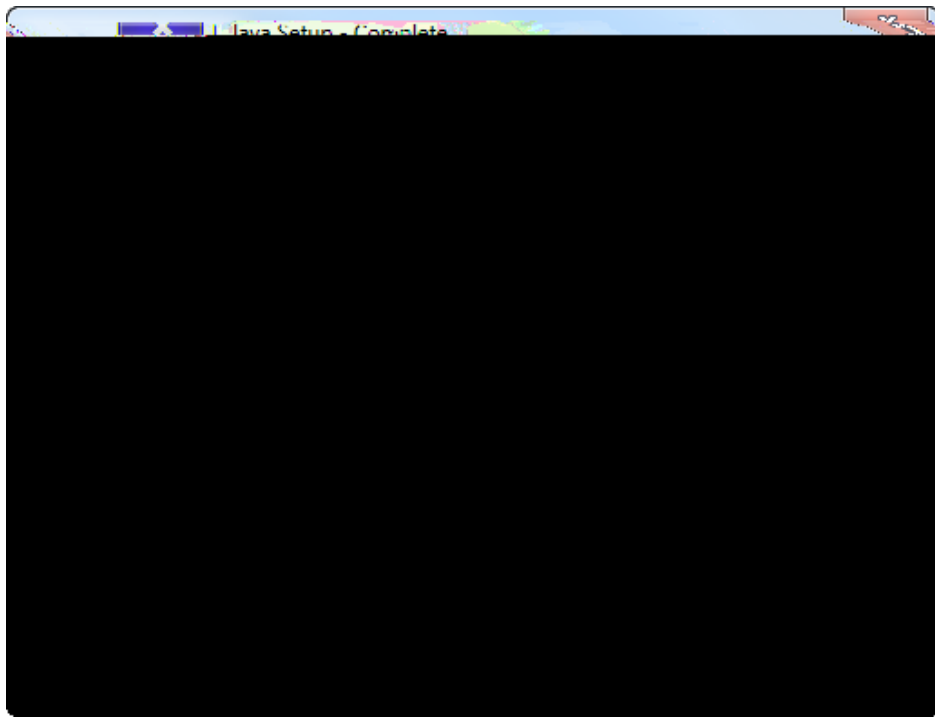

4. If you are running a more recent version of Internet Explorer, you will most likely see a popup at the bottom of your browser. Select

8. And then another.

9. Once you receive a notice of successful installation, select

10. Navigate back to:

WWW.JAVA.COM

11. Click on the
Link.

12. Click on the
button.

13. If the
